DEPARTURES TV

Departures TV is a dedicated service providing travel, entertainment and information for all our customers. Driving a mixture of content on exisiting or phonetica supplied displays; including integrated Flight specific information, marketing or any other required content.

We are headquartered in the UK with customers on every continent. Many of the world's most successful organisations rely on our equipment including; major hub airports, railway networks, museums, libraries, traffic control centres, ports, ferries, military sites and power stations.

Phonetica is one of our 'out of the box' solutions that can be easily configured to your needs. We also offer a personal, tailored consultancy service to help you solve individual problems whether you're upgrading, or building a new airport or moving to 'a silent operation'.
